Lahontan Water Board ***PUBLIC INFORMATION MEETING***

HINKLEY GROUNDWATER CLEANUP PROJECT UPDATE

Date and Time:

Thursday, December 8, 2011 from 6:30 – 8:30 PM

Location:

**Hinkley Elementary School
37600 Hinkley Road, Hinkley, California**

Topics:

- **October 2011 Whole-house Replacement Water Order**
- **Results of Fall 2011 groundwater monitoring for chromium**
- **Environmental Impact Report development update**
- **Summary of Peer Review comments on 2007 Background Chromium Study**

Lahontan Water Board staff will host an information meeting to update the public about cleanup activities at PG&E's Hinkley Compressor Station site. The Water Board is requiring PG&E to clean up waste hexavalent chromium (chrome 6) from the groundwater, which was contaminated through historic disposal practices at the Compressor Station.

Water Board staff will give presentations on each topic, and will be available to answer questions. Maps showing the current boundaries of the chromium plume in groundwater will be available. The public is encouraged to attend the meeting to learn about the current status of cleanup activities, and upcoming opportunities to review and comment on the Environmental Impact Report.

A Spanish language interpreter will be available at the meeting.

Water Board orders, PG&E chromium plume maps, and other informational materials can be viewed on our website at: **www.waterboards.ca.gov/lahontan**.

If you have questions about the meeting, call Lisa Dernbach at (530) 542-5424 or email her at LDernbach@waterboards.ca.gov.
